

Program Management & Technology Services Inc.

CAPABILITY STATEMENT

COMPANY OVERVIEW

Program Management and Technology Services, Incorporated (PMTS, Inc.) was established in Nov 2013 as a minority, woman-owned small business (currently 8(a) certified), IT service company focused on providing program management and information technology services to the federal government and industry partners. PMTS has extensive experience working with the PMOs to provide SME support, requirements analysis / management, configuration management, risk management, functional testing, products/market research, AWS cloud services including migration and implementation, IT solutions, and project planning and monitoring. We have developed software using the waterfall and agile/scrum methodologies; and managed the entire software development life cycle from conceptualization to implementation as well as sustainment. We have years of experience working with the Business Process Directory (BPD) or System Engineering Process (SEP). PMTS is also currently providing and managing numerous software license subscriptions for the United States Air Force (USAF) and the Defense Commissary Agency. PMTS leverages reach back capabilities with its team members to quickly ramp additional resources to support future requirements.
